8. **Qualification and Work experience**

8.1 Senior Technical Program Manager (TOR - 1)

Key Responsibility

Role of the professional is to lead and coordinate with vertical heads, officials of I4C, cybercrime research team etc. to implement creative ideas, engaging with multiple stakeholders, intermediaries and making data-driven decisions for following verticals each.

	Qualification	Work Experience
Essential	B.E/ B.Tech (Computer Science/Computer Engineering/Information Technology/Electronics / Electronics & Communication/Electronics & Telecommunication) / MCA with First Division or with minimum 60% marks in aggregate from a recognized University/Institution	Relevant Experience in domain Cyber Security/ Cyber Crime in execution and management Hands-On experience in Cyber Security Audits, Vulnerability Management, Penetration Testing, ISMS Implementations, Cyber Forensics, Cyber Threat Intelligence.
Desirable	Relevant Certification in Cyber Security / Information Security/ Program Management	Experience of working in Cyber Security/ Information security, strategy, planning & policy formulation

8.2 Android / iOS Security Researcher (TOR 3)

Key Responsibilities

Professional will be responsible for identifying security vulnerabilities in Mobile Apps, perform malware analysis on android / iOS apps reported on various platforms, assist law enforcement agencies in mobile app forensics.

Qualification	Work Experience

Essential	B.E/ B.Tech (Computer Science/Computer Engineering/Information Technology/Electronics / Electronics & Communication/Electronics & Telecommunication) / MCA / MBA with First Division or with minimum 60% marks in aggregate from a recognized University/Institution	3 Years experience in Mobile Security Assessment (Android & iOS), Reverse Engineering, Android Malware analysis
Desirable	Relevant Certification in Cyber Security / Information Security	Knowledge of Java, Android Platform, Linux Architecture, Scripting (Python/Ruby etc.)

8.3 Vulnerability and Threat Management Professional (TOR 8)

Vulnerability Assessment and Penetration Testing Professional will be responsible to perform task of vulnerability management of organization's infrastructure and perform VAPT on application / network infrastructure on need basis. Professional will also be responsible for Information Security Audits as and when required.

	Qualification	Work Experience
Essential	B.E/ B.Tech (Computer Science/Computer Engineering/Information Technology/Electronics / Electronics & Communication/Electronics & Telecommunication) / MCA with First Division or with minimum 60% marks in aggregate from a recognized University/Institution	Minimum 3 years hands-on experience in domain of Vulnerability Management, Application Security Assessment, Information Security Audits.
Desirable	Relevant Certification in Cyber Security / Information Security	Experience in Red Teaming, Securing critical / sensitive IT infrastructure (Banks, Government etc.)

8.4 Executive Assistant (Office Expert)

Key Responsibilities

Executive Assistant will be responsible for creating presentations, documentations, data entry operations for officers of all verticals. Professional will also be responsible to work on advanced excel, macro programing as and when required.

Qualification	Work Experience

Essential	Graduate Degree in any field with minimum 60% marks in aggregate from a recognized University / Institution	Minimum 2 years of experience in data entry and making presentations. Must be conversant with Excel Programming, Word, Professional Power Point Presentation.
Desirable	Certification in advanced excel, Microsoft office.	Experience in Macro Programming, Excel Automation etc.

8.5   Technical Assistant - (JCCT)

Key responsibility

Professional will be responsible for managing JCCT platform related operational work like user creation for law enforcement agencies, onboarding, linkage analysis, report extraction, troubleshooting portal issues.

	Qualification	Work Experience
Essential	Graduate Degree in any field with minimum 60% marks in aggregate from a recognized University / Institution	Minimum 2 years of experience in general data analysis, remote support, advance excel.
Desirable	Certification related to basic computing concepts.	Experience in financial / Government sector.

8.6   Security Operation Center Expert (TOR 10)

Key Responsibilities

Candidate will be responsible to setup security operation center (SOC), creating custom rules and co-relation, and monitoring of the departmental IT infrastructure. Candidate will also assist in Incident Response.

	Qualification	Work Experience
Essential	B.E/ B.Tech (Computer Science/Computer Engineering/Information Technology/Electronics / Electronics & Communication/Electronics & Telecommunication) / MCA / MBA with First Division or with minimum 60% marks in aggregate from a recognized University/Institution	3 Years Security/Network Operation Center Setup and Operation Experience in Ministries / Private Companies.
Desirable	Relevant Certification in Cyber Security / Security Operations Center / Incident Response.	Experience in configuring Log Rhythm SIEM solution, corelation, use case development and incident response.

8.7   Data Analytics Professional (TOR 15)

Key Responsibilities

Data Analyst would be responsible for analyzing the data generated out of NCRP, CFCFRMS, JMIS, Social Media Handles etc. and provide visualization, dashboard creation, trend analysis on periodic basis.

	Qualification	Work Experience
Essential	B.E/ B.Tech (Computer Science/Computer Engineering/Information Technology/Electronics / Electronics & Communication/Electronics & Telecommunication) / MCA with First Division or with minimum 60% marks in aggregate from a recognized University/Institution	3 Year's experience in the field of Data Analytics and Data Science including (not limited to) data correlation, data cleanup, dashboard creation / visualization, OCR etc.
Desirable	Relevant Certification in Data Analytics / Data Science.	Experience with MS-SQL, MongoDB, Power BI, Tableau, Web Scrapping etc. and Perform data profiling, linkage analysis, attribution to identify and abilities to understand anomalies.

8.8   Cyber Crime Researcher - Telecom & IoT (TOR 23)

Key Responsibilities

Professional will work on research on in loopholes exploited by cyber criminals in telecom and using various modus operandi, provide technical and policy level suggestions to counter the same in Telecom & IoT sector.

	Qualification	Work Experience
Essential	B.E/ B.Tech (Computer Science/Computer Engineering/Information Technology/Electronics / Electronics & Communication/Electronics & Telecommunication) / MCA / MBA with First Division or with minimum 60% marks in aggregate from a recognized University/Institution	Minimum 3 years of experience in Telecom Security and IoT security.
Desirable	Relevant Certification in Cyber Security / Security Operations Center / Incident Response	Understanding of telecom infrastructure (4G, 5G), Internet of Things, SIM Box, VoIP etc.

8.9   Senior Software Engineer (TOR)

Key Responsibilities

Professional will work on architecting, code optimization of existing code of various portals of I4C, work on improvement of existing features and processes and assist the team in development issues and bug fixing.

	Qualification	Work Experience

Essential	B.E/ B.Tech (Computer Science/Computer Engineering/Information Technology/Electronics / Electronics & Communication/Electronics & Telecommunication) / MCA / MBA with First Division or with minimum 60% marks in aggregate from a recognized University/Institution	Minimum 5 years of experience in Software Design and development in reputed company/organization with experience in .NET technology.
Desirable	Relevant Certification Software Development	Understanding of secure coding, code optimization, database management and new web technologies.

8.10   Cyber Threat Analyst (TOR 22)

Key Responsibilities

Professional will be responsible to prepare Cyber Digest, create actionable report through OSINT, inputs from National Cyber Crime Reporting Portal, Social Media Handles etc., manage in-house information sharing platform.

	Qualification	Work Experience
Essential	Graduate Degree in any field with minimum 60% marks in aggregate from a recognized University / Institution	Minimum 1 years of experience in OSINT, Social Media Analysis, Report Creation, Crime Research
Desirable	Certification related to basic computing concepts, language, cyber security / information security, OSINT.	Experience in financial / Government sector.
